

## Lakes International

LANGUAGE ACADEMY

Dear Parents and Guardians,

Welcome to fourth grade at Lakes International Language Academy. My name is Xiaofeng Peng (Peng laoshi). I am excited to be your child's teacher this year. I am looking forward to teaching them a lot of new things and helping them successful.

I grew up in China and got my bachelor degree from Sichuan Normal University with a major in Chinese Language and Literacy. I also received my master degree from Michigan State University and focused on Teaching and Curriculum. While in the U.S, I had two years Chinese teaching experience in middle school and high school. In my free time, I like cycling, badminton, swimming and traveling. I have been to Canada, Japan and Thailand, and I expect to visit more countries to experience diverse cultures.

As a native speaker of Chinese, I am very excited to have a chance to share authentic language and cultures with you and your child. I defined myself as a dynamic language educator. Passionate about teaching and helping young people grow as bilinguals—committed to providing an authentic Chinese learning environment maximizing the potential for every student.

I hope the information above will give you a general insight to who I am. I am very excited to meet you and your children at back-to-school conference. At this meeting, I will specifically introduce more about curriculum, learning goals and expectations. If you have any questions or concerns, please feel free to ask me so that I can better help them.

Yours Sincerely,

Xiaofeng
