

FIELD TRIPS

Policy 340

I. PURPOSE

This document serves as a finance policy about the school field trip fund and provides general, practical information about school-sponsored field trips at Lakes International.

II. PHILOSOPHY

- a. The school seeks to provide students with rich, quality educational experiences both inside and outside the school.
- b. It is the school board's general expectation that all student trips will be well planned, conducted in an orderly manner and safe environment, and will relate directly to the objectives of the class or activity for which the trip is requested.

III. STATEMENT OF POLICY

a. Instructional Trips

- i. These trips take place during the school day, relate directly to a course of study, and **require student participation**.
- ii. Instructional trips are subject to review and approval of the director or curriculum coordinator and are to be **financed by school funds** within the constraints of the school budget. Fees may not be assessed against students to defray direct costs of instructional trips. (MN Statute 123B.37, Prohibited Fees)

b. Supplementary Trips

- i. Supplementary trips may or may not take place during the regular school day. They involve curriculum enhancement and student activities.
- ii. Teachers and instructors may not test or grade students on information gained solely through participation in a supplementary field trip.
- iii. Supplementary trips are subject to review and approval of the director or curriculum coordinator.
- iv. Financial contributions by students may be requested. (MN Statute 123B.36, Authorized Fees) Students or families for whom any requested fees might cause a hardship may request a scholarship for the trip. They may contact the student's teacher, the school finance office, or the school director.
- v. Financial contributions shall be requested prior to each trip for that trip alone, unless clearly specified otherwise. Incoming kindergartners may be asked to contribute fees at the time of enrollment, in an amount specified by school administration.
- vi. At the beginning of the school year, written permission for student attendance for the year's field trips will be requested. Parents or

FIELD TRIPS

Policy 340

guardians must notify the school prior to a specific field trip if they do not want their student to attend.

- vii. If a student attends a field trip and contributions for the trip are not made and no scholarship has been requested, the finance office will send a letter to the student's parent(s) or guardian(s) as a reminder. Included with the letter is a form that the parent/guardian can complete asking for financial assistance for that specific field trip.
- viii. Any contributions leftover after the trip shall be held in the field trip fund for use toward the next trip. Any balance remaining shall be added to the next field trip cost. Each grade's financial contributions shall be accounted for by the school, and shall follow the class as a whole as it moves up through the grade levels. Any funds remaining in the class fund at the end of 6th grade shall go to the school's general fund.

c. Extended Trips

- i. Extended trips involve one or more overnight stops. They may be instructional or supplementary, and must be requested well in advance of the planned activity.
- ii. Extended trips must receive approval from the school director. Exceptions to the approval policy may be granted or expedited to accommodate contingencies (such as tournament competition).
- iii. The school board acknowledges and supports the efforts of booster clubs and student fundraising drives in providing extended trip opportunities for students within the context of school liability disclaimers.

IV. REGULATIONS

- a. Rules of conduct and discipline for students and employees shall apply to all student trip activity.
- b. The school administration shall be responsible for providing more detailed procedures, including parent/guardian involvement, supervision, and other factors deemed important and in the best interest of students.
- c. A commercial carrier shall furnish transportation. Private vehicles should not be used other than the transport of a child by his or her own parent or guardian, not for other children or for reimbursement.

V. SCHOOL BOARD REVIEW

The director shall at least annually report to the school board on the trips under this policy.

Amended: 10/31/14
