Forest Lake, MN 55025  
Summer 2016

Hello LILA Family!

My name is Angie Ebben (Profe Angie) and I will be your child's fourth grade teacher this year! I am very excited to get to know you and your student as we begin a year of learning and growing socially, academically, intellectually and emotionally. Until that time, here is a little about me.

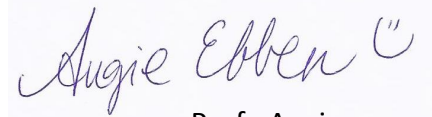

This will be my third full year teaching at LILA. I finished out the 2012-2013 school year in Señora Mandy's first grade classroom when she left for maternity leave. I taught first grade again for the 2013-2014 school year. I then taught for a year at the John F. Kennedy American School in Querétaro, México as the math specialist for kindergarten through 5<sup>th</sup> grade. While in Querétaro I enjoyed making new friends, using my Spanish, playing on an ultimate Frisbee team, experiencing the culture, and eating lots of delicious food! I decided to come back to LILA after a year abroad to be closer to my family and to re-join the school family at LILA. Last year I taught fourth grade and absolutely loved it!

I graduated from the College of Saint Benedict/Saint John's University in St. Joseph, MN where I studied elementary education and Spanish. While in college I studied abroad in Viña del Mar, Chile and thoroughly enjoyed learning about another culture and meeting life-long friends! I love to travel, teach, learn, read, make connections with my students, exercise, be outdoors, and spend time with family and friends. I also have a slight obsession with collecting children's books! My love for learning about the Spanish language and other cultures developed from various eye care mission trips I have taken with my family in Mexico, Nicaragua, and Honduras.

This year I am looking forward to teaching fourth grade again with a great team! I taught this generation of students in first grade and am so excited to have some of them again and to see how much they have grown!

I look forward to meeting (or catching up!) with you at Bienvenidos Conferences in August. In the meantime, enjoy the rest of your summer!

All the best,

Profe Angie
