

Welcome letter from 1st Grade Qiu Laoshi

Dear Parents,

Welcome to first grade Qiu Laoshi's class! After the long summer, we are finally getting together entering a new level of exploring fun! As we are entering 1st grade, we are going to learn about life cycles, about our human body systems, about the different cultures around us, and all the other interesting topics. And don't forget, we are going to be speaking more Chinese in class, and we will master so many more Chinese characters. This is my third year teaching in LILA, and I have had so much fun learning with kids. I am so sure, that this coming year I will again witness all of us growing every single day, and love learning ever more!

The first grade year could be full of sparkling moments. Your children, and even you parents and me, are on our journey of self-discovery. We are exploring what we are truly good at, what we find the most joy by doing that particular thing. I sincerely hope that your children are stepping further, reaching higher, and most importantly, have fun in our community by learning and playing together!

Sincerely

Ying Qiu Laoshi
