

Dear families of Kindergarten,

My name is Silvia but you can call me "Seño Silvia". I will be your student's kindergarten teacher for the next school year.

This is my third year at LILA and I am so excited to start such an amazing adventure of teaching.

I will tell you a little about myself. My name is Silvia and I was born in Madrid, the capital of Spain. I have two sisters and one brother. We get along very well and we are very close. We always try to do things together especially we love to travel. I also have a cat. I love animals!

I always knew that I would be a teacher. But I have another passion as well: I love music and this is why I decided to be a Music teacher too. I think it is a great combination.

I have been teaching in several schools with students from three to twelve years old. I have been a music and a Homeroom teacher in Kindergarten and Elementary school.

I was lucky to work in a school to deaf children and thanks to that I was able to learn how to treat special needs students.

As a pianist and music lover I was the director of the school choir where I last worked.

My passion for the American culture started seven years ago when I went to the USA to study English for two summers. There I lived with two families and since that moment, I fell in love with the American culture and the people. When I came back to Spain I started to dream about my life there. Now my dream came true. After living and working two year here in US I'm really happy with my decision.

I am so sure that this coming year will be full of new experiences, learnings, discoveries, new friends and wonderful moments.

I am looking forward to meeting you at the Welcome Conferences. Meanwhile If you have any questions, please, contact me at sherrero@lakesinternational.org

Remember that we are on the same boat. We are a team. I would like to count on your support and participation as you can count on me.

Sincerely,
¡Hasta pronto!

Silvia Herrero-Fernández
